

THE ORANGE CITY NEWS

ORANGE CITY, FLORIDA, NOVEMBER 23, 1906.

Miss C. A. Babcock, Editor.

TWO EXCITING RUNAWAYS

Horses Feeling Frisky this Fine Weather.

W. C. Cannons' hack, which plies between here and DeLand, carrying the mail, had an exciting runaway Tuesday morning. As they were nearing Orange City the horses started to run, and Oscar Ponder, the driver, grabbed the mail bags and jumped, at the same time calling to the single passenger in the hack with him to jump also. Both landed unhurt and were picked up and brought in by a team coming behind.

The horses continued running and came tearing up Graves Ave. turned into Oak Ave., and there collided with an oak tree in front of Mrs. Thursby's residence, completely demolishing the hack. The horses were unhurt and were caught by Fred Graham.

J. D. Graham's horse became frightened at the train Monday, ran away and smashed up the wagon. He ran about half a mile before being caught.

Graham & Son in New Location.

J. D. Graham & Son are now doing business in Wm. Laws store at the corner of Graves and Volusia Avenues.

Wm. Laws to Build Cottages.

Mr. Wm. Laws has bought two lots of Mr. G. N. Knox on Holley Ave., almost in front of Orange City Hotel. He will soon begin the erection of two cottages on them.

Revival Meetings.

A special series of revival meetings will begin at the Orange City M. E. Church, Sunday, Nov. 25, and continue throughout the week. Services beginning at 7 o'clock, conducted by the pastor, Rev. Joseph Autie. A cordial welcome is extended to all. Rev. Henry Hayer, D. D., will preach Sunday morning at 11 a. m.

Fortunate Missourians.

"When I was a druggist, at Livonia, Mo.," writes T. J. Dwyer, now of Graysville, Mo., "three of my customers were permanently cured of consumption by Dr. King's New Discovery, and are well and strong today. One was trying to sell his property and move to Arizona, but after using New Discovery a short time he found it unnecessary to do so. I regard Dr. King's New Discovery as the most wonderful medicine in existence." Sore Throat and Cough cured. Guaranteed by all Druggists. 50c and \$1. Trial bottle free.

He who thinks to please her by taking her at her word, is either a born fool or a self made one.

Teacher—How many parts of speech are there, Freddy?

Freddy—There ain't no parts in our house, 'cause when Mama gets started her speech is the whole thing.

How to Clean Ivory Brushes.

The backs of Ivory brushes which have become soiled and spotted can be cleaned easily. Make a paste of sawdust slightly moistened with water and a few drops of lemon juice. Lay the paste over the ivory and allow it to dry thoroughly. Afterward brush off carefully with a soft brush. Another method is to take a small piece of clean flannel, dampen it slightly, dip into fine table salt and rub over the ivory. For carved ivory the former is the best method, as the sawdust can be removed easily from the carving.

How to Wash Pillows.

Both feather and down pillows can be made clean and sweet by being washed in soap and water in which is a little of some one of the disinfectants made from coal tar. They need to be dried in the sun and wind, like any piece of the household washing.

Chapped Hands.

Wash your hands with warm water, dry with a towel and apply Chamberlain's Salve just before going to bed, and a speedy cure is certain. This salve is also unequalled for skin diseases. For sale by all Druggists.

Rev. Halliday left here Monday to attend the East Coast Conference of the Congregational Church which is being held in Melbourne this week.

Mrs. W. C. Cannons and daughter, Miss Emma, Mr. and Mrs. Ruff, all of DeLand, were calling on Mrs. Fred Finney Sunday evening. Mrs. Edward Gross and Mrs. Cannons were over a few days before to see Mrs. Finney.

Chase & Sanborn's Teas and Coffee as J. W. Clark's. Mrs. Thursby and Mrs. Haley spent Tuesday forenoon in DeLand on business.

Two cousins of Mrs. J. D. Graham, Misses Ella and Hattie Walden of Weathersfield, Conn., arrived last week. They will spend the winter with Mrs. Graham at her home on Graves Ave.

Mr. and Mrs. James Walden entertained friends at dinner Monday.

New Evaporated Fruits, Maple Syrup, Pancake Flour, and Nuts for Thanksgiving at J. W. Clark's.

Don't forget the Thanksgiving dinner at the Fenwick House. You will have a good time socially beside a good dinner.

Mr. and Mrs. Callio, who have been visiting Wm. Baker's family, returned to their home in Jacksonville Monday and took Miss Lillian Baker with them to stay until Christmas.

Mr. T. L. Ramsey and wife arrived here Wednesday. Mr. Ramsey takes Mr. S. C. Fuller's place at the station while Mr. Fuller is away.

Mrs. Brenna is improving, her friends are glad to hear.

Mr. Percy King left here Friday noon for Titusville where he will spend the remainder of his vacation.

Miss E. M. Dickinson and niece Miss Katie Boyles, of Chicago, arrived Wednesday evening. Miss Dickinson has been quite ill for several weeks before she started South. We hope she will soon be strong; this climate and water work wonders on ailing ones.

Miss Nellie McCormic, came over from New Smyrna Saturday morning; went over to DeLand shopping and returned here, visited with friends until the six o'clock train when she returned home. Her many friends were pleased to see her.

Mr. and Mrs. Fawcett, their daughter, Miss Drue, and grandson, Master Charles, arrived Friday noon. This is the fourth winter they have spent here and Orange City people have become much attached to them.

Mrs. E. A. Hill has been indisposed this week, as also has Mrs. Piper. Both are improving.

We are having beautiful weather now, warm and pleasant as summer. Many are shipping oranges. J. D. Graham and Edwin French have commenced shipping theirs this week.

Be Charitable

To your horse as well as to yourself. You need not suffer from pains of any sort—your horse need not suffer. Try a bottle of Ballard's Snow Liniment. It cures all pains. J. M. Roberts, Bakersfield, Mo., writes: "I have used your Liniment for ten years and find it to be the best I have ever used for man or beast." Sold by all Druggists.

Aunt: "Yes, I loved poor Fido so much that when he died I had him stuffed and put in this glass case where I could see him."

Nephew (aged 5): "And when you die, Auntie, is Uncle George going to have you stuffed, too?"

Deaths from Appendicitis decrease in the same ratio that the use of Dr. King's New Life Pills increases. They save you from danger and bring quick and painless release from constipation and the ill growing out of it. Strength and vigor always follow their use. Guaranteed by all Druggists. Try them.

ORANGE CITY FLORIDA.

Almost everyone you meet has the desire to spend one winter in Florida. And why not? Only twenty-four hours from the chilling winds of the frozen north to the sunshine, the blossoms, the fruit and the perennial green of our famous southland.

ADVANTAGES.

Orange City has many advantages to present to the man seeking rest from the nervous strain of business. The climate and environment are restful to the shattered nerves and the worn out body—alike beneficial to the poor and the rich seeking homes in the bright and sunny south, to the invalid seeking health and the tourist seeking pleasure. The climate is similar to the Indian summer of the northern states. Out door life is the rule here in winter.

LOCATION.

The selection of the site by men of experience, while the country was yet all open, has proven their good judgment; the well known record for healthfulness, excellent soil for fruit growing, and the unparalleled purity of the water.

Orange City is situated 113 miles south of Jacksonville and twenty-five miles from the Atlantic coast, in the midst of a high rolling pine country, naturally drained, far removed from sources of malaria, and fanned by breezes from old ocean and the gulf, thus enjoying an atmosphere not sufficiently dry to be too exciting nor sufficiently moist to be too relaxing, it enables the healthy to enjoy life and the invalid to breathe ease.

ORANGE CITY WATER.

Physicians attribute the remarkable freedom of this section from sickness very largely to the purity of the water, which has now become quite noted and is being shipped to various parts of the country. This fountain was discovered after penetrating to the depth of 100 feet, when the drill dropped seventeen feet. The Orange City Mineral Springs Water was on exhibition at the St. Louis exposition with 121 different brands of water, from thirty-three states and Canada. In the list were springs of world-wide fame—such as the Saratoga Springs, the Poland Water and the Waukesha Lithia Water. The jury of award gave the medal and certificate of highest award to the Orange City Water, saying: "You have the highest award the world can give you for your products."

In coming to a new country the quality of the water is of the highest consideration on the ground of healthfulness.

PRODUCTS.

We cannot give all the products possible in this country, but among the vegetables raised here are sweet potatoes, Irish potatoes, peas, millet, cassava, tomatoes, okra, corn, pumpkins, cabbage, onions, cauliflower, egg-plant, sugar cane, beets, lettuce and celery, and many other garden vegetables.

PROPERTY.

For fruits, we have the orange, lemon, lime, grapefruit, fig, peach, Japan persimmon, grapes, plums, bananas, guavas, pomegranates and many kinds of berries. Huckle and blue berries wild in abundance. Strawberries, especially, do well here. Apricots are raised in some parts, and even the apple can be grafted into the haw tree. Pecan nuts do especially well. Many medicinal plants grow wild. The vanilla is in abundance. Plants from which perfumes are made grow wild.

Property of all kinds can be bought cheaper than at any other place having equal attractions, and many are taking advantage of this circumstance to secure homes here. A cordial invitation is extended to the reader to come and see.

PEOPLE.

The citizens of this place are mainly from different states of the north, and, as a rule, refined, intelligent, cultivated and moral, and are noted for being especially friendly to strangers.

HOMES.

Orange City is a nice thriving town, with two hotels, four private boarding houses, and cottages to rent to those who prefer a private home. Most of the citizens remain here the year round, many preferring the summer season, which is pleasant and comfortable with the cool ocean breezes blowing across the peninsula. Anyone desiring a home in the south need have no hesitancy in settling here, as statistics will amply prove its healthfulness. There are a few houses left which can be purchased at a low figure but these chances are getting less every day.

BLUE SPRING.

Two and a half miles from this place is the mammoth Blue Spring, one of the greatest mineral wonders in Florida, to see which is worth a journey of a thousand miles. The stream the spring makes empties into the St. Johns river. One can row from the spring to the river.

Written by an Orange City

Yes, every sin is a mistake, and the epitaph for the sinner is: "Thou fool."

All noblest things are religious. Not tempest martyrdoms only, but the best books, pictures, poetry, statues and music.

Bilious Attack Quickly Cured. A few weeks ago I had a bilious attack that was so severe I was not able to go to the office for two days. Failing to get relief from my family physician's treatment, I took three of Chamberlain's Stomach and Liver Tablets and the next day I felt like a new man.—H. C. Bailey, Editor of the News, Chapin, S. C. These tablets are for sale by all Druggists.

SCHOOL ITEMS.

By the Ninth Grade.

The boys at school had quite an exciting chase with some turkeys that came on the school ground.

The stove that was up stairs in the hall has been changed and put in the little room.

The last few days the ninth grade has gone down stairs because it was cold.

The girls did not turn out well at the skating rink, I guess on account of the weather.

X. Y. Z.

The squirrels are getting real numerous and tame around the schoolhouse and we hope they will continue to do so, and so they will if the children will leave them alone.

How nice it is to sit out in the sun this weather. It even seems warmer than a warm room.

"Marjie."

The clock in the grammar room needs repairing.

It has been real cool for the last few days and the boys have been making fires out at the swing.

Miss Lillian Baker has stopped school to go to Jacksonville where she stays until after Xmas. She will study under Elder Callis. Her schoolmates will miss her very much.

"Noname."

A man has no more right to say an uncivil thing to another man than he has to knock him down.

The fact is, sin is the most unmanly thing in God's world. You were never made for sin and selfishness. You were made for love and obedience.

HOUSING OF FOWLS.

How to Care For Them During Cold Weather.

If houses for poultry are to be built, attend to the matter at once before cold weather interferes with outside work, writes Eben E. Rexford in "Making the Country Home" in Outing Magazine for October. Everything should be in readiness for the flock by the coming of cold weather. If you have houses already, go over them and see that they are in perfect repair.

In building the first thing to do is to select a proper location. The ideal one is the south slope of a hill. The next best one is a place protected from cold winds by buildings on the north and west. If no facilities for shelter are at hand, the north wall of the building must be made of extra thickness. Evergreen trees make an excellent wind break, and I would advise planting them for future protection, no matter how thick you make the walls of your house.

Be very sure that whatever location you select has perfect drainage. This is a matter of the greatest importance. Leading poultrymen agree that more sickness among fowls originates from dampness than from all other causes. More and more the opinion grows among practical poultry growers that the best house for fowls consists of a closed room, in which they may roost, lay and remain in cold weather, if they choose to do so, and a shed opening to the south, where they can scratch and sun themselves to their liking. There should be an opening between this shed and the closed room, through which the fowls may have free access during the day, but which should be closed at night in cold weather and for the protection of the hens from intruders. The shed floor should be covered with chaff, straw or leaves to the depth of five or six inches. If road dust or sand is mixed with it, the better the fowls will be suited. If grain is scattered over the litter, the fowls will busy themselves scratching for it, and this open air exercise will be a strong factor in keeping the flock healthy. It will also result in a larger yield of eggs, if an egg producing diet is given in connection with it.

Puns.

People who make puns are like wanton boys that put coppers on the railroad tracks. They amuse themselves and other children, but their little trick may upset a freight train of conversation for the sake of a battered witticism.—O. W. Holmes.

A Guaranteed Cure For Piles. Itching, Bleeding, Protruding Piles. Druggists are authorized to refund money if PAIN OINTMENT fails to cure in 6 to 12 days. 50c.
